PRESS RELEASE

Shipadmin Signs up REM Fortress

Shipadmin welcomes REM Fortress as a user of Shipadmin Captains Secretary

Volda, Norway, 1st October, 2011: REM Fortress will be using Captain Secretary.

REM Fortress, measuring 85m by 20m and having a deck space of more than 1000 square meters, is the latest addition to the REM Offshore fleet. It is a PSV classified as ICE C and it is able to accommodate 25 persons

This advanced offshore supply vessel is of Wärtsilä VS 485 design. The sister ship - Rem Commander was delivered in June of this year. These vessels represent a new generation of efficient and reliable offshore service vessels with high focus on safety, fuel economy and payload capacity both below and above deck. With light ice class these vessels are also suitable for operation in the northern areas. REM Fortress is equipped with oil recovery systems which we believe will make her even more attractive in the market. The vessel is also equipped with a cleaning system for ballast water, which is a new environmental requirement for this type of vessel.
